

After, Wednesday:

After the celebration, as the bus with our team drove up the steep hill from the house site, some of the local people noticed that one of the right rear tires was flat. They flagged us to stop. So beyond the top of the hill we pulled over and many local people, including the pastor, helped during the tire change, bringing need tools.

Flat tire

We all got out of the bus

Bus driver using jack and local tools

Some area trees had bright red flowers

A field of casava

Nearly done with tire change

Moon and Venus

Cirrus cloud at sunset after our ideal weather for building the home

As the sun was setting it gave an opportunity for more area photos.

Two flash drives with dozens of Jesus Film products (full length videos of 1 to 3 hours, a discipleship series, and many short videos for discussion starters) in the Latin-American Spanish language were given to the pastor's youngest

daughter, Dahiana Lizardo, who was in charge of the church audio/visual systems. She viewed and was delighted with the videos and will use them for education and evangelism for years. She also received on one flash drive more than 400 of my photos of the team effort.

(Photo to right)

Contents:

Jesus Film (updated original from 1979, 2 hours, now in more than 2300 languages)

Magdalena, - Director's Cut (82 minutes, now in more than 230 languages), good for women

Magdalena (1 hour version)

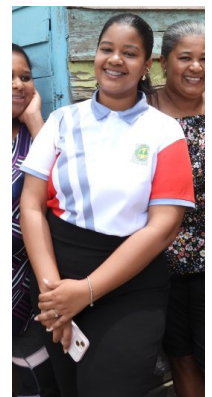

The-Story-of-Jesus-for-Children (1 hour)

Life-of-Jesus-Gospel-of-John (3 hours)

Book of Acts (3 hours)

Rivka (discipleship series, 12 episodes of about 20 minutes)

shorts (27 videos, about 1 to 8 minutes, for discussion starters)

Thursday: The team had an excursion to a tourist area at which people equipped with helmets and life jackets would slide down a series of tight waterfalls and water chutes. (Photos and videos were made by others.)

Entrance to "27 waterfalls"

Arriving

Suiting up for safety

Departure for the water adventure

One of the lunch tables after adventure

This may be a termite nest nearby

I also took bird photos there which are included at the end of the report about colors of the return flight home. (Water, Fire, and Bird Colors.pdf)

Friday: In the morning we visited the site for the new dormitory for future Casas teams that will be built and is described in the Casas Facilities.pdf report.

In the afternoon we flew to Miami and back to our homes.
